

Kilawatt Technologies

Energy Solutions for
Colleges and Universities

CREATING SMART ENERGY SOLUTIONS TODAY FOR A GREEN TOMORROW

DO YOU NEED AN AFFORDABLE STRATEGY TO COMBAT RISING ENERGY COSTS AND TO LOWER GREENHOUSE GASES?

Kilawatt Technologies works closely with colleges and universities from around the country as an integral part of a campus-wide green plan. For these schools, Kilawatt Technologies has consistently achieved an annual energy saving of over 20%, saving tens of thousands of dollars each year. Equally significant, Kilawatt Technologies and these schools have prevented tons of harmful greenhouse gases from being released into our atmosphere and dramatically reduced their campus' carbon footprint.

KILAWATT TECHNOLOGIES ELIMINATES THE FINANCIAL AND TECHNICAL ROADBLOCKS TO LOWERING ENERGY COSTS.

WHAT'S PREVENTING YOU?

Contrary to common belief, it is not necessary for your school to spend a lot of money to reduce energy costs and greenhouse gas emissions from your buildings. With Kilawatt Technologies, no capital investment is necessary to start your buildings energy initiative. Kilawatt's innovative technology simplifies the task of optimizing systems to cut harmful greenhouse gases. We report actual savings, so you receive full credit for your successes.

Using Kilawatt Technologies allows you and your students to make a positive, proactive campus effort to fight global warming.

"Everyone wins with Kilawatt Technologies: our budget, students and the environment."

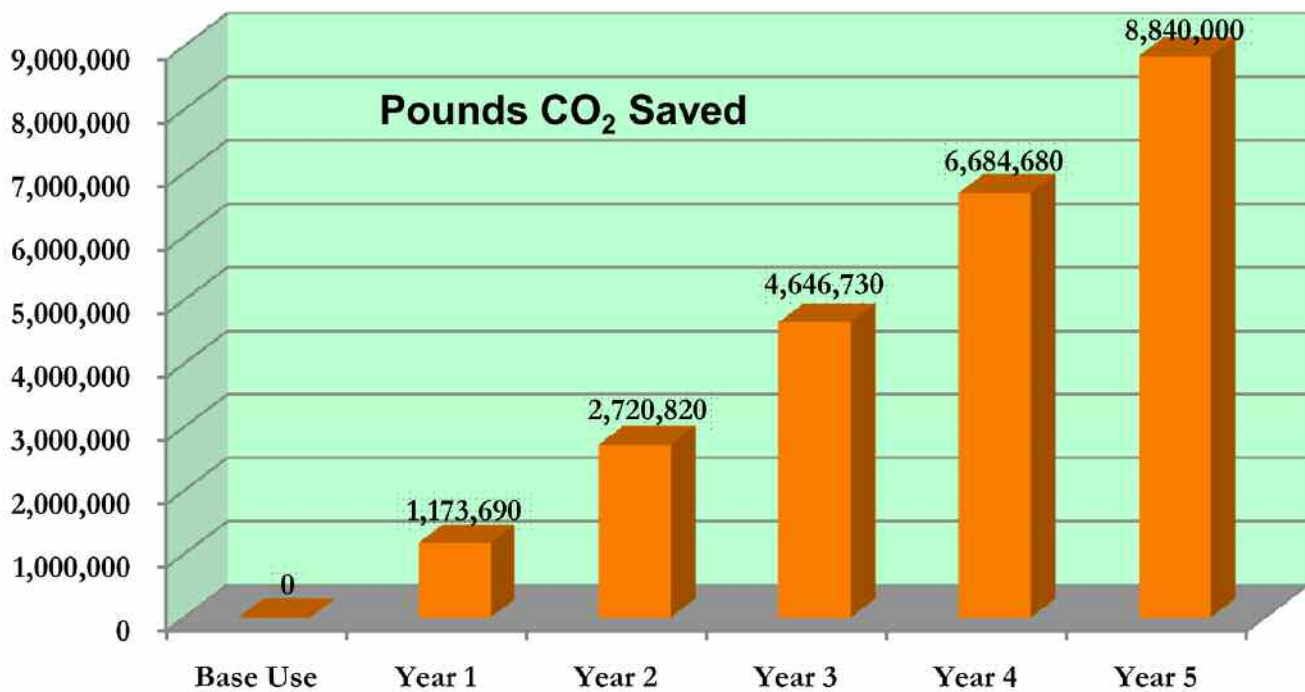

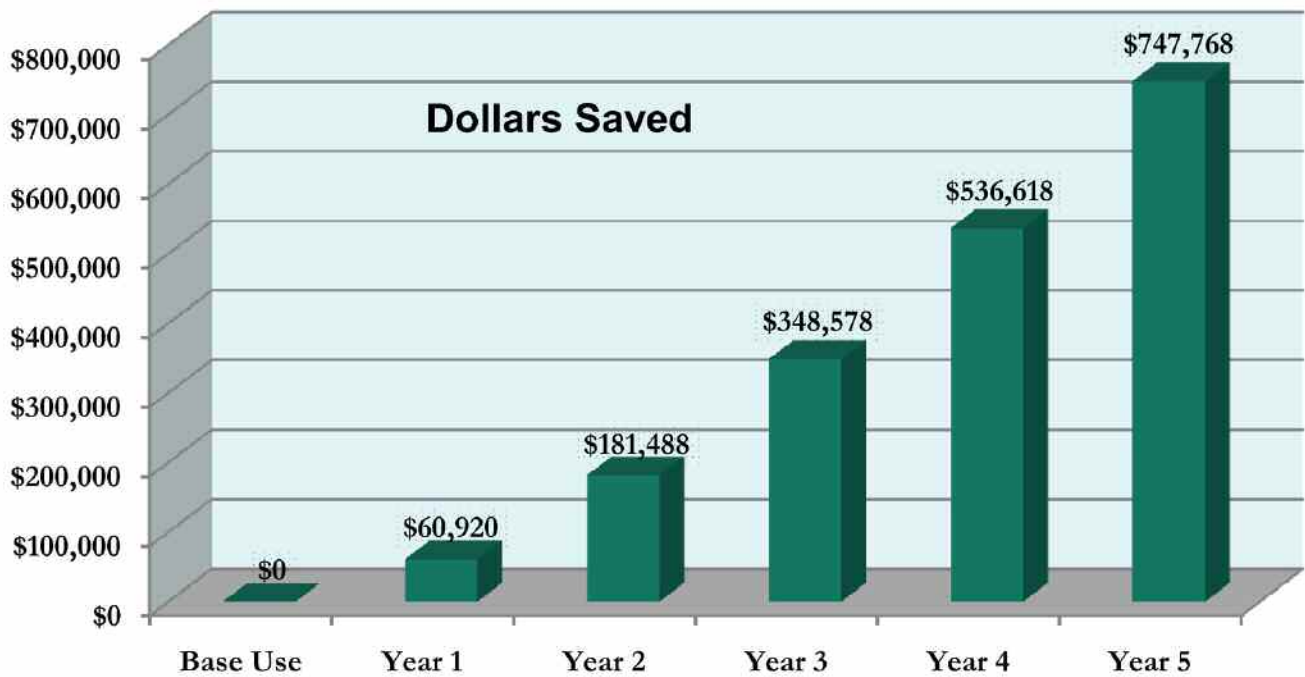

WHAT TECHNOLOGY DOES KILAWATT BRING TO YOU?

Kilawatt Technologies has designed and developed state-of-the-art energy conservation software that is integrated with advanced diagnostic equipment. Our system quickly and accurately locates costly building operation issues and problems that we help you correct. This proprietary technology, EnerSuite™, is available only to you when you partner with Kilawatt Technologies to implement a campus-wide buildings energy initiative.

TYPICAL CUMULATIVE FIVE-YEAR SAVINGS FOR A COLLEGE OR UNIVERSITY WITH ANNUAL ENERGY COSTS OF \$500,000

HOW KILAWATT TECHNOLOGIES BENEFITS YOU:

- Lower your school energy expenses and apply savings to other crucial programs.
- Dramatically reduce and document greenhouse gas emissions.
- Gain valuable public good will, exposure and green benefits from your reduced energy "footprint."

WE ONLY WORK FOR YOU

Kilawatt Technologies doesn't sell equipment or energy and offers a number of easy, convenient payment options to help your school begin your project. Regardless of which option you take advantage of, we still save you over 20% annually. Our payback periods are short, usually a few months instead of the 5-15 years typically offered by other companies. Kilawatt Technologies has extensive experience, knowledge and demonstrated results.
